## Work History

2022-06 - Current

### Senior Associate

PwC AC, Acceleration center , BENGALURU

- Achieved client satisfaction and loyalty by establishing collaborative relationships, facilitating needs assessment.

- Worked on integration processes, Utilizing the standard SAP out of the box offering, APIs for integration objects such as customer, products, Sales order (create/change/Read), delivery notification etc.
- Actively participated in the business workshops to gather the business requirements and document them in key design documents
- Responsible for preparing the business functional specific documents, Configuration documents and integration mapping documents
- Worked on the latest S/4 offerings such as advanced ATP (PAL, PAC and BOP), advanced returns for returns and claims process, Condition contracts for Rebates , Business partner, and Credit management

2021-05 - 2022-06

## **Associate**

*PwC AC, Acceleration center, BENGALURU*

- **CLIENT – CROSBY (US, MATERIAL HANDLING INDUSTRY) – JUNE'21, CURRENT (IMPLEMENTATION)**
- Leading the master data track for all the OTC objects (customer, MM (sales), CMIR, customer hierarchy, pricing condition records etc.)
- Working along with snaplogic (3rd party tool) team to extract, transform and cleanse legacy data
- Working along with client for their legacy data and requirements
- Utilizing master data migration tools such as LSMW, LTMC and tool based on standard BAPI and FM
- Master data design documentation to capture the relevant requirement
- Integration with other modules such as MM, FI and EWM
- Master data cutover plan and load

2021-06 - 2021-12

## **Associate**

*PwC AC, Acceleration center Bangalore, BENGALURU*

- Lead the otc master data track (especially customer and material master sales)
- The migration was from SAP ECC to S/4 (currently operating in 4 regions APAC, US, EMENA, and RSA)
- We were responsible for conducting the regional workshop to collect regional data and suggest global data for a single S4 system for all regions
- We were utilizing MDG environment as the central infrastructure
- Working in phases, as followed in agile methodology, I was also involved in the development of implementation plan for the next phase of implementation

2019-11 - 2021-05

## **Software Engineer**

*Accenture Solution Pvt. Ltd, BENGALURU*

- I was one of the active SAP SD member right from the blue printing stage till the go-live phase
- Responsible for creating blue print document, sample process design in sandbox, process design and UAT, master data creation and load, go-live and hyper care support
- Worked on niche SD processes such as intercompany transactions, 3rd party scenario, MTO processes, smartforms, and credit management

- Tool development through LSMW
- LTMC, or BDC for data
- Supporting and learning other business modules like MM, EWM and FI
- FIORI report development for sales reporting and analysis.

2016-12 - 2019-11

## Associate Software Engineer

Accenture Solution Pvt. Ltd., BENGALURU

- **CLIENT - ANHEUSER-BUSCH INBEV {BEVERAGES} (US) (DEVELOPMENT/ROLL OUT) (APRIL'17 TO MARCH'19)**
  - Enhancement of various regions was carried under change requests (CR),
  - Preparation of proposal document, estimation delivery plans
  - Worked extensively on the business smartforms, output determinations, sales order type enhancements, pricing procedure and shipping & route determination
- **CLIENT – PFIZER (US) {PHARMA}**
  - Providing production support and solving end-user problems.
  - Analyzing the incidents and tickets and providing permanent solutions.
  - Working on P1, P2, P3 & P4 incidents based on the criticality and service request within SLA.
  - Pre- sales activities such as inquiry, quotation and major business activities such as pricing, billing, shipments, ATP, credit management, EDI and IDOCS, output determination among the others.
