CAREER OBJECTIVE

To be an astute project developer and the challenging performer in your organization. So that I can fulfill my avocation in your esteemed organization by performing my skills and other significant talents.

SUMMARY

- 2 years of experience as a Web developer with proactive attitude.
- **Experience in HTML5, CSS3, JavaScript , WordPress, Drupal and ReactJS.**
- Extensively worked on Position of CSS3,margin,padding,making of colors.
- Creating Functional and Class Components and worked on Props and State.

PROFESSIONAL EXPERIENCE

PARINATI SOLUTIONS INDIA LIMITED:(April 2021 to August 2022)

- Developing and modifying of HTML5 and CSS3 code on static web pages.
- Implementing HTML5 and CSS3 code in Spektrum DX8 site(Drupal).
- Creation of Functional and Class Components, using props and state.

PROJECT: RADIOLOGY

Project depends on the Radiology treatment for patients on different languages. In this

project, some front end part needs CSS3 and for some part there should be modification of CSS3 required. Same CSS3 to be implemented in Spektrum DX8 site.

Radiology project is having Images, Videos, Sticky containers, Carousels, Accordions and Forms with specific diseases and required treatment on particular disease will be specified. And as per selection of country, it will be redirected to the page of that country with respective language.

Development of Online Store website by using ReactJS, here I have to develop the Components which are Functional and Class Components. And rendering the names of client which is in store site by using props and state.

Having conceptual idea on JSX, Virtual DOM and useState as well.

TRIGYN TECHNOLOGIES LIMITED:(February 2018 to July 2019)

- Client Registered and other factors by using HTML5, CSS3.
- UI developer as a Secondary Reporting Person.
- Involved in enhancement code changes and issue solving.
- Creating web pages using Themes, Plugins of Elementor, Beaver and Colibri in WordPress.

PROJECT: EHR YOUR WAY (MEDICAL OFFICE SOLUTIONS)

An Electronic Medical Record (EMR) is a digital version of a paper chart that contains all of a Patient's medical history from one practice.

EHR Your Way is an All-in One Solution designed to increase patient flow, by eliminating paper in the office, streamlining note taking, improving the practice with standardized methods of handling patient medical exam records, and incorporating the features practices need to qualify for Stimulus bonuses.

An EMR may include a range of data, including demographics, medical history, medication and allergies, immunization status, procedures, laboratory test results, radiology images, vital signs, personal statistics like age and weight of a patient and also regarding the hospital / health institution details like No of wards, No of Rooms, Locations of the institutions etc.

TRS STAFFING SOLUTIONS INDIA PRIVATE LIMITED:(October 2017 to February 2018)

- Involved in designing and developing various modules.
