

SKILL SUMMARY:

- 3.7 Years of IT Experience in Software testing.
- Having good experience in creating scripts in **Selenium WebDriver** using **Java**.
- Well versed in creating **BDD** using **Cucumber**.
- Having experience in **TestNG** and **JUnit** Framework.
- Experience on developing a framework using **POM Design Pattern**.
- Exposure on **Maven** Build Tool.
- Experience in Requirement Gathering from Client, **Test Data Creation, Execution, and Reporting**.
- Experience in Manual Testing, good knowledge in **SDLC, STLC concepts and Defect Life Cycle** also **functional levels of Testing**.
- Experienced in designing and executing test cases. Having good knowledge in **Bug life cycle**.
- Good knowledge in preparing **Test Scenarios and RTM**.
- Experience in Test Management Tool(**JIRA**).
- Create and debug the functions based on the requirement/issues.
- Experienced in **GITHUB** roles such as maintaining Git repositories, connecting local repository to remote repository, and branching activities in GITHUB.
- Having experience in manual **Mobile testing** using **BrowserStack**.
- Good experience on Continuous integration tool like **Jenkins, CICD**.
- Having knowledge in **API** with **REST** assured, Azure Devops.
- Capable of working at great pressures and strict deadlines.
- Ability to learn and adapt to new tools and technologies very quickly.
- Ability to communicate effectively in verbal and written English.
- Ability to think independently and learn rapidly.
- Good analytical ability and leadership.

EDUCATION:

- B.Com – PRIST University.

EMPLOYMENT HISTORY:

- **Software Engineer:** (Since August 2018 - February 2021), **DataBase System**.

TECHNICAL EXPERTISE:

- Bug Tracking Tool – **JIRA**.
- Operating Systems – Worked with Windows [Xp,7,8 and 10].
- Programming Language – **Core Java**.
- Version Control Tool – **GitHub**.
- Software IDE – **Eclipse**.

PROJECT DETAILS:

Project #1 : Idealo
Role : Software Tester
Abstract : Worked as core Team Member of 3.

Description: Founded in Germany in 2000, Idealo is a price comparison and e-commerce site allowing users to not only compare prices to select the best value items, but purchases can also be made via the platform, making it one of the largest e-commerce sites in the country. Idealo covers categories including sports and outdoor, baby and children, house and garden, food and drink, gaming, pharmaceuticals, and so much more, making it one of the most comprehensive comparisons and e-commerce sites.

RESPONSIBILITIES:

- Preparing Test Scenario and Test Cases using MSExcel
- Carry out **Regression testing** every time when changes are made to the code to fix defects.
- Involved in defect review meetings with the development team along with testing team for the resolution of the defects.
- Report the daily status to Manager.
- Adding test cases for the defects found which is not in the requirement document.
- Executed test scenarios using parallel browser testing.
- Project was automated with **TestNG** and **Data-Driven** Framework.
- Error Handling, Adding Comments.
- Tracking Defects and Select Test-case for Re-Test & Regression Testing.
- Retesting the cases where defect has been raised.
- Preparing Defect Report and assigning the defects to the developer.

Project #2 : Jet2
Role : Software Tester
Abstract : Worked as core Team Member of 2.

Description: Jet2, styled as Jet2, is a British multinational low-cost airline group headquartered at London. It operates domestic and international scheduled services on over 1,000 routes in more than 30 countries.

RESPONSIBILITIES:

- Preparing feature files for user stories of the application using **Cucumber API Research**
- and development.
- Elaborating the **Features File** to positive and negative scenarios with parameterized Data.
- Automating the features using Selenium and developed reusable functions used across the project.
- Preparing Repository by finding relative **Xpath** for the elements.
- Using **Cucumber** and creating tests and tests execution.
- Was a part of **Agile Scrum** Methodology and was part of Daily Scrum call, Sprint planning and Sprint Retrospective calls.
- Generated Reports Using **Jenkins** and Sent to the production automatically.
- Involved in helping the team members as and when needed.
- Automated the test Scenarios Using **Cucumber** and **Junit** Framework
- Perform smoke Testing for each & every Migration of Environment.
- Performed **Regression & Functional** Testing to check the correctness of existing functionalities.
- Execute the application with Different Browser & **Mobile Testing**.
- Tracking the Defects for Closure.

PERSONAL INFORMATION:

Father's Name : Mr. Hirudayaraj G
Mother's Name : Mrs. Helen H
Date of Birth : 01.06.1994
Languages Known : Tamil, English

DECLARATION:

I hereby declare that all the above-mentioned statements are true to the best of my knowledge & belief.

Date:

Place:

(AJAY H)
