- Experience with implementing unique features of Bootstrap.
- Hands-on experience with Web Responsive using Bootstrap's Templates.
- Knowledge of using React, and ExpressJS for web application development.

TECHNICAL SKILLS

Web Technologies	HTML5, CSS3, JavaScript, ES6, AJAX, React, Redux and Redux Toolkit
Libraries	Bootstrap, React, Redux
Build Tools	NPM, Webpack, Babel
Testing	Jest

SDLC/Methodologies	Agile, Scrum
IDE	Visual Studio Code, Sublime Text
Version Control Systems	Git

EDUCATION

Arjun College of Technology,
Coimbatore. B.E ECE (2016 -
2020)

EXPERIENCE

Crud Operations
Software
Engineer
March
2020 to Present

PROJECTS

RECRUITER APPLICATIONS

The application is an end-to-end recruiting solution, with applications for job posting, candidate sourcing, applicant tracking, analytics, and more. Users also have the ability to create both a careers page and an employee referral portal through the system. It allows you to post and advertise job openings, track the status of candidates as they move through your recruiting pipeline, view and edit candidate profiles, and communicate with both applicants and your team. Interview scheduling and push notifications are included, as is the ability to create and leverage message templates to speed up communication.

RESPONSIBILITIES

- Developed Single Page Application using HTML5, CSS3, Javascript, React.JS with an eye towards simplicity, reliability, performance, scalability, and extensibility.
- Worked with back end developers to implement AJAX in the projects.
- Experimented on using some features in HTML5 and CSS3 in projects (which was getting popular then).
- Developed JavaScript to manipulate DOM and CSS dynamically in the projects.
- Created and maintained UI prototypes and specifications in applications.
- Developed the screens in the applications with table-less designs meeting W3C standards.
- Used JSON with fetch and post the data to the backend in projects.

- Created a custom responsive web application to replace a legacy line-of-business web application using React JS.
- Developing and designing SPA user interfaces in React JS.
- Worked on the Front end by using React JS, JavaScript.
- Used Angular.js for connecting the API's using React JS \$http service.
- Designed dynamic and multi-browser compatible pages using HTML, CSS, React JS and JavaScript.

DYNAMIC INVENTORY

This is an inventory solution that primarily caters to small- to mid-sized businesses. It helps automate and streamline workflows by tracking purchase orders, sales and vendor information. It provides real-time updates to help track shipments and payments.

RESPONSIBILITIES

- Created a custom responsive web application to replace a legacy line-of-business web application using React JS.
- Developing and designing SPA user interfaces in React JS.
- Worked on the Front end by using React JS, JavaScript.
- Developer responsive interface using Bootstrap and using SASS for CSS.
- Responsible for creating the screens with table-less designs meeting W3C standards.
- Applied jQuery scripts for basic animation and end user screen customization purposes.
- Responsible front-end UI design using HTML5, CSS3, JavaScript, jQuery, jQuery plugins. Used Media Queries for the design to be compatible in all devices.
- Implemented the Drag and Drop functionality using jQuery framework.
- Used Grunt as task runner to test the JavaScript with JSHint.
- Worked on Cross-Browser Compatibility and tested each & every web application on popular web browsers such as Internet Explorer, Firefox, Safari, Opera and Chrome.
- Used Media Queries to deal with different CSS related issues on different devices.
- Designed and Developed Web Applications using HTML, CSS, JavaScript, Visual Studio Code, Working under Agile project management.
- Created Dynamic web pages using JavaScript for validating different form data.
