- **OBJECTIVE**

-
- Having 3 years of experience on MySQL Database Administrator in IT Infrastructure and Hosting based 24X7 support environments.
 - Seeking a position to utilize my skills and abilities in the industry that offers professional growth while being resourceful, innovative and flexible.
 - Ability to maintain a reliable and methodical approach to support and documentation.

Professional Summary

-
- Having Around 3+ Years of experience as a **MySQL** Database Administrator.
 - Experience in MySQL 5.1, 5.5 and 5.6 on both Windows and Linux
 - Installation, Creation, Maintenance of Databases, Performance Tuning, Backup and Recovery, Optimization and Database Security.
 - Installation of Replication (Master-Slave and Master-Master replication).
 - Having Good Experience on MySQL Storage Engines (MYISAM AND INNODB)
 - Knowledge on performance and fine-tuning MySQL servers.
 - Having rich experience on Database monitoring tool Monyog.
 - Experience with MySQL Backups and Restore Scenarios.
 - Working as a part of team and providing 24x7 supports on a Production database and system support environment. Have good understanding on the MySQL internals.
 - Highly organized, with efficient time, task, and resource management.
 - Experience in Importing and Exporting Database Backup.
 - Quick to learn, adjust, and adapt to new environments and techniques.
 - Coordinating and interacting with team members and development team.
 - Excellent verbal and written communication skills, self-motivated, ability to handle multiple tasks and meet deadlines, able and willing to learn quickly.
 - Worked on Query Optimization
 - Handling Scheduled and planned production changes.
 - Troubleshooting production issues and providing resolutions
 - Have good understanding on the MySQL internals.
 - Installation, Creation, Maintenance of Databases, Performance Tuning, Backup and Recovery, Optimization and Database Security.

Technical Exposure:

- Operating Systems: RHEL AS4.8, Linux 5, Centos, Ubuntu
- RDBMS/ORDBM : MySQL 5.5/5.6/5.7, Database administration
- Languages : **MYSQL** and **SQL**
- Tools : **Monyog**

Educational Qualification:

- Name of the University: JNTUniversity Anathapur
- Degree: B. Tech

Professional Experience:

- Current Organization: Altisource
- Duration : Jnu 2019– Till date.

Project Summary:

- Project Name : Constellation
- Duration : Jan 2019 to till date
- Languages : SQL, MYSQL, UNIX, Java, PHP
- Operating System : Red hat Enterprise Linux
- Environment : MYSQL, Linux, Java

Roles and Responsibilities:

- Installation, Creation, Maintenance of Databases, Performance Tuning, Backup and Recovery, Optimization and Database Security.
- Providing assistance in user provisioning.
- Worked on performance and fine tuning of MySQL servers.
- Experience with MySQL Backups and Restore Scenarios.
- Implemented & maintained multiple instances in single environment

- Understanding complex queries and tuning for performance improvement.
- Worked on Query Optimization
- Handling Scheduled and planned production changes.
- Troubleshooting production issues and providing resolutions
- Setting up the different types of replication master-master and master-slave replication
- Coordinating and interacting with team members and development team.
- Supports onsite clients 24*7.
