Also I have been worked with Vodafone telecom in IBM for AOC monitoring systems.

Academic Qualifications:

- Bachelor of Engineering (Computer Science & Engineering) from R.G.P.V. University, Bhopal, M.P.

Latest project Updates: -

Project Title 1	Proactive AI
Role	Software Quality Assurance engineer
Responsibilities	<ul style="list-style-type: none">• Understanding the requirement documents FRD.• Involved in preparing SRS documents.• Involved in test scenarios & test case writing.• Involved in functional, regression, re-testing and system testing.• Involved in reporting the bug.• Involved in preparing the bug report.• Involved in preparing daily report.• Participated in weekly project progress meeting.• Creating test script using Jmeter for the scenarios for the alert notification.
About Project	The Goal of the project is to develop a product for the EV cars for all type notification for whether forecast alert and tyre pressure for the safety of the user.
Front End / Back End	Android, Java AWS cloud services
Script	Jmeter Script

Project Title 2	Alexa Cloud Integration
Role	Software Quality Assurance engineer
	<ul style="list-style-type: none">• Understanding the requirement documents like FM.• Involved in preparing SRS documents.

Responsibilities	<ul style="list-style-type: none"> • Involved in test scenarios & test case writing. • Involved in functional, regression, re-testing and systemtesting. • Involved in reporting thebug. • Involved in preparing the bug report. • Involved in preparing daily report. • Participated in weakly project progress meeting.
About Project	The goal of developing the Product to create an speech assistant using Alexa on the cloud of Cerence. There is wake up word alexa is using for the functionality work on voice over speech .
Front End / Back End	Java, JavaScript and Python
Script	Postman API

Project Title 3	WAC(VPA),W3W and Browse
Role	Software Quality Assurance engineer
Responsibilities	<ul style="list-style-type: none"> • Understanding the requirement documents like FM. • Involved in preparing SRS documents. • Involved in test scenarios & test case writing. • Involved in functional, regression, re-testing and systemtesting. • Involved in reporting thebug. • Involved in preparing the bug report. • Involved in preparing daily report. • Participated in weakly project progress meeting. • Doing testing on the HU and Emulator.
About Project	<p>In this Products testing wake up words for the voice speech assistance for Vinfast and Alexa and also for Hey Siri,</p> <p>In What 3 Words car can be navigate automatically to the Particular location using Google Map.</p> <p>In Cerence Browse There are number of questions and answers start a game between HU and the user.</p>

Personal Details:

- Language known : English, Hindi & Gujarathi
- Father's Name : Mr. Mahesh Chandra Gujarathi
- Gender : Male
- Date Of Birth : 20-09-1989
- Nationality : Indian

Declaration:

All the above particulars are true to the best of my knowledge and belief.
