Project Exposure:

ProjectTitle : Merchant Acquiring and Payment System.

Over-View: MAPS is a combination of **FSS Merchant** and **Merchant Self Service**.

- **FSS Merchant** is designed to manage all end to end requirements of merchant acquirers. Ranging from efficient merchant-on-boarding and management to insightful dynamic report generation and everything in between. It also handles interchange clearing and settlements as well as merchant settlements, thus empowering the acquirers to manage their merchant networks effortlessly.
- **Merchant Self Service** is a separate web interface extended to 'Merchants/Stores', to have access to the merchant/store profile, transactions and settlement data. It also enables merchants/stores to place order request for stationery items & raise refund transaction requests. The merchant/stores will be accessing the system online using the unique login credentials provided by the acquirer.

Clients :

1. ArabFinancialServices (AFS) – Bahrain
2. Bank of Baroda -India
3. UnionBank of India- India.
4. State Bank Of India - India.
