- ➢ Helped to team members to resolve issues.
- ➢ Developed mule sapi and papi implementations
- ➢ KT sessions on mulesoft to team members
- ➢ Resolving api issues in API Manager
- ➢ Support platform operations tickets on daily basis and helping to team to resolve issues
- ➢ Code reviews of application developed by other team members.

Project #9

Solution for sending out timely delta changes from Employee Central to ADP system, which is the payroll system used by the ABS. Completely automated the workflows through

Successfactor(EC) to the ADP system using batch processing. Consuming RESTful web services (OData), SOAP Services (SFAPI) of SF, BOX connector, SFTP connection, batch processing, CSV creation by using data weave, Exception Handling, Mail Notification, PGP Encryption. Using GIT for versioning the applications. Cloud hub Deployment.

Title	:	SuccessFactors-ADP Integration
Client	:	Alexion Business Services.
Environment	:	Anypoint Studio, Cloud hub, Successfactor
Duration	:	Jan-2016 to 31-Jan-2019
Role	:	Team Lead

Responsibilities

➢ Understanding the requirements, design and development of Mule interface.
➢ Code, debug, test, and document application programs
➢ Time and Effort estimation
➢ Project Deployment
➢ Unit testing and functional testing by owning use cases.
➢ Production support.
➢ Provide work status to onsite team on daily basis

Project #8

Solution for sending out timely delta changes from Employee Central to Concur system, which is the Travel & expense used by the ABS. Completely automated the workflows through SuccessFactors(SF) to the Concur using Batch processing.

Title	:	SuccessFactors-Concur Integration
Client	:	Alexion Business Services
Environment	:	Anypoint Studio, Cloud hub, Successfactor
Duration	:	Feb-2017 to 31-Jan-2019
Role	:	Team Lead

Responsibilities

➢ Understanding the requirements, design and development of Mule interface.
➢ Code, debug, test, and document application programs
➢ Time and Effort estimation
➢ Project Deployment
➢ Production support.
➢ Unit testing and functional testing by owning use cases.
➢ Provide work status to onsite team on daily basis

Project #7

Alexion SAP HRMS going to shut down as part of shutdown Alexion team implementing SAP PI exist interfaces into MuleSoft Interfaces.

Title	:	Sunset Project
Client	:	Alexion Business Services
Environment	:	Anypoint Studio, Cloud hub, Successfactor
Duration	:	April-2018 to 31-Jan-2019
Role	:	Team Lead

Project #6

Solution for sending out timely delta changes from Sales force CRM VVA to CSV files. Completely automated the workflows through Salesforce to PW Interface using Batch processing.

Title	:	PW Interface
Client	:	Alexion Business Services
Environment	:	Anypoint Studio, Cloud hub, Successfactor
Duration	:	Nov-2017 to 31-Jan-2019
Role	:	Team Lead

Responsibilities

➢ Understanding the requirements, design and development of Mule interface.
➢ Code, debug, test, and document application programs
➢ Time and Effort estimation
➢ Project Deployment
➢ Production support.
➢ Unit testing and functional testing by owning use cases.
➢ Provide work status to onsite team on daily basis

Project #5

Irvine is one of the nation's largest planned urban communities and encompasses more than 65 square miles. We contract for fire and medical services with the County of Orange, and have three independent districts: library, educational and utility services. Title	:	Irvine
Client	:	**Irvine**.
Environment	:	NWDS, Webdynpro java, SAP NetWeaver Portal7.4, sap ui5,

		ECCehp7.
Duration	**:**	May-2013 to Dec-2015
Role	**:**	SSE

Responsibilities

- ✓ Handling incidents and CRQ's
- ✓ Handling SSP Webdynpro java Applications
- ✓ Working on ESS/ MSS Applications.
- ✓ Worked on content admin and user admin and system admin.
- ✓ Worked on KM Documents.
- ✓ Migrated java webdynpro DCs from 7.0 to 7.4
- ✓ Worked with BAPI_PO_CHANGE, BAPI_PO_Create and z functional modules
- ✓ Tranined on mulesoft

Project #4

DESUN Hospital & Heart Institute is a 300-bed hospital and Affordable High-End Superspeciality Cardiac Hospital, supported by 21 other medical departments like Gastroenterlogy, Orthopaedics, Neurology, Nephrology, General Medicine, General Surgery, etc. Desun mission is to continuously improve the quality of the entire range of hospital services and to emerge as the most reputed hospital in the country.

Title	**:**	**eSUN**
Client	**:**	DESUN.
Environment	**:**	NWDS, Webdynpro, SAP NetWeaver Portal7.3, ECC6.0ehp5,
Duration	**:**	Feb-2012 to 27-may-2013
Role	**:**	Sap EP Consultant.

Responsibilities

- ✓ Development of Webdynpro applications (for java and Abap webdynpro).
- ✓ Calling RFCs using Adaptive RFC2 Model.
- ✓ Portal Logon page customization.
- ✓ Created **JCO** Destinations in portal administration.
- ✓ Developed ABAP Webdynpro applications.
- ✓ Developed webdynpro applications using ALV Tables.
- ✓ Integrate tCodes into portal.
- ✓ Created remote iviews.

- ✓ Integrated JAVA & ABAP Webdynpro applications into the Portal.
- ✓ Developed adobe PDF forms.
- ✓ Created ABAP dictionary objects like domain, dataelement, ztables and structures.
- ✓ Created on R/3 system objects in portal.
- ✓ Developed user interfaces using webdynpro JAVA and ABAP.
- ✓ Migrated Webdynpro applications from 7.0 to 7.3.
- ✓ Given support to other team members.

Project #3

Title	:	**CHDP**
Client	:	CGSL.
Environment	:	NWDS, Webdynpro, SAP NetWeaver7.3, ABAP,
Duration	:	Apr-2010 to jan-2012
Role	:	Sap EP Consultant.

Description:

Integrated Healthcare Business Transformation solution named as **Crane Health DeNovo Paradigm (CHDP)** helps healthcare organizations improve patient care by streamlining the way they access, integrate, and share information. The HIS incorporates an integrated computerized clinical information system for improved hospital administration and patient health care. It also provides an accurate, electronically stored medical record of the patient. A data warehouse of such records can be utilized for statistical requirements and for research. Built on the SAP Net Weaver platform, this solution will enable the industry to enhance quality of care while controlling healthcare costs. CHDP leverages use of an enterprise service-oriented architecture (enterprise SOA) to help reduce IT costs and enable automated collaborative processes among industry participants-including healthcare providers, health insurance companies, public health authorities, pharmaceutical companies, physicians and pharmacies

Responsibilities:

- ✓ Development of Webdynpro applications (for java and Abap webdynpro).
- ✓ Worked on different development modules in CHDP.
- ✓ Calling RFCs using Adaptive RFC Model.
- ✓ Worked on BDC for creation customer in SD Module.
- ✓ Involved in Validations & handling Errors and Messages.

- ✓ Integrating java & abap Webdynpro applications into the Portal.
- ✓ Resolving Technical issues.
- ✓ Developed online pdf forms.

- ✓ Debugging functional modules.
- ✓ Created abap dictionary objects.
- ✓ Created different type of iviews in portal.

Project #2

Title	:	**Commissions**
Client	:	Motorola**,** USA.
Environment	:	NWDS, Webdynpro, SAP NetWeaver Portal, ABAP, Cold fusion,

Sql srver2005

Duration	:	Oct-08 to 15-April-10
Role	:	Sap EP Consultant.
