Seena Sreejith

Role : Azure Administrator

seenasreejith1@gmail.com , Mob:9535288333

SUMMARY

Having 5 + Years of Experience as Technology enthusiast with specialization on **Azure Cloud Administration**. Expertise in Provisioning the azure **IAAS and PAAS Services**. Involved in planning ,implementing & troubleshoot the cloud services. Worked in implanting the **HUB & SPOKE** model architecture

Involved in creating build plan for **azure services**, recommended **virtual Machines SKUs from azure market place** for the business requirements. Setting up cloud monitoring services and server management tools. Provision the services using **Azure native ARM** templates

TECHNICAL SKILL

- Hands on experience in provisioning azure native IaaS and PaaS Services like
  - Vnet , Subnet, Vnet Peering , NSG configuration, WAF Gateway set up, Azure native monitoring service set up
  - SQL DB PaaS Service, Azure Firewall configuration , Route table set up
  - Site to Site Vnet connectivity set up
  - Provision the Azure services using ARM Templates
  - Configure Azure native back up service and configuration
  - Implement HUB & SPOKE model landing zone for customers
  - Provision virtual machines from Azure Market place
  - Troubleshoot the network connectivity between HUB and SPOKE VNets
  - Setting up Bastion Host services for accessing Virtual machines
  - Configure Private End points for Azure PaaS services
  - Configure Azure cost management Dashboards
  - Recommend and set up enterprise naming conventions for Azure native service
  - Create Azure Storage Accounts
  - Configure encryption mechanism for data storage in cloud.

OTHER SOFT SKILLS

SAP ABAP
- Data Dictionary, Reports, Function Modules, ALV, Object Oriented ABAP, Module Pool
SAP MDG
- Data Modelling,UI Modelling, Process Modelling, Rule Based Workflow, Data Replication, Data Search and Quality,BRF+
- Hands-on experience in programming languages such as **Core Java, C, C++, .Net** etc., **HTML,**.

CERTIFICATIONS AND TRAINIGS UNDERTAKEN:

- AZ104-Microsoft Azure Certification
- Undertook training/Course in C# .NET and MS-SQL at NIIT Bangalore

PROFESSIONAL SUMMARY

Clarity Systems Inc.   **Sep 2020 – Till Date**
Role : Azure Administrator
Project #1 : US Based Utility Company
This Project is to build a Azure landing zone /foundation for hosting customer web based application in azure cloud as part of the their transformation program. Primary approach to build the cloud foundation using HUB and SPOKE model and secure the application layer by leveraging cloud native features.
Key Results :
- Part of my daily work involves in creating build sheets for provision the Azure Infra and PaaS services
- Create build data for following Azure Services
    - Virtual Machines , Resource groups , Subscriptions , NSGs, Vnets, SubNets , App Gateway , SQL PaaS Services, Storage accounts , Azure Firewalls, Route table.
    - Create Vnet Peering between HUB and SPOKE network
    - Create Subnets for App Layer and DB Layer
    - Create Private End Points
    - Configure Azure native back up services.
- Validate and assign IP address for Vnets and Subnets
- Adhere and recommend Microsoft enterprise naming conventions for above azure Services
- Configure Azure monitor services for IaaS , PaaS and Apps workloads
- Troubleshoot of monitoring devices if false alert or no alert triggered.
- Configure azure scale set for VMs
- Configure Email for alert generation
- Set up Azure S2S connectivity between customer on premise data center and Azure cloud

Project #2 : Australia based Electricity Provider
This project was to implement Azure landing zone for migrate customer on premise data from their on premise data center to cloud. Being part of azure Infra team , I was involved in azure infra team.
Key Results :
- Deployed azure resources like Virtual machines , Vnets, Subnets , NSGs , Firewall
- Establish connectivity between on premise and cloud environment by configure gateway for S2S connection
- Prepare LLD for azure services
- Implemented Azure AD Domain Service
- Set up Azure domain Join for the hosted VMs in Azure
- Recommend and select VM SKU for apps workloads from Azure market place.
- Set up Azure blob storage and storage accounts

MotiveLabs Technologies, Bangalore   **July 2018-March 2019**
Designation :   Junior Consultant
Role: Working in Real Estate project as a ABAP Module pool Developer. Underwent S4HANA training
SAP ECC 7.4
- Developed Real Estate project Sales unit Screen using module pool ABAP.
- Developed singleton class and unique id for linking all the tables and making tab strip performance uniform .

- Linking between the business entity and main building done by using unique id generated by the standard class.
- Did RE project testing and prepared test documents for the same

GardenCity College,Bangalore   **Aug 2007 – Feb 2008**
Lecturer (Dept.of Computer Science)
Role: Handling Classes for MCA, BCA, BSc Comp Science Students.
Subjects Handled : C, Core Java

Quartesett , Bangalore   **Oct 2006 – Aug 2007**
Designation: Software Faculty
Experience: Java,C, C++

Nascent Technologies, TVM   **Aug 2004 – Aug 2005**
Designation: Software engineer
Experience: Core Java

EDUCATION QUALIFICATION

Year	Institute/University	Degree	Percentage
2001-2004	AK College of Engineering (Madurai Kamaraj University)	MCA	77%
1998-2001	S.N.College, Punalur(Kerala university.) Physics	BSc	86%
1996-1998	S.N.Colleges, Punalur(Kerala university)	Pre-Degree	60.5%
1995-1996	St.Goretti H S , Punalur, Kerala	S.S.L.C	76.6%

PERSONAL DETAILS

DOB   :   25-05-1981
Sex   :   Female
Marital Status   :   Married
Nationality   :   Indian
Languages Known   :   Malayalam, English and Hindi
