Executive Summary	- Technical Architect with 15+ years of successful experience in Software Design, Development and Delivery - Adequate knowledge to facilitate, implement projects through SDLC as well as agile methodology. - Experience in Spring boot, Microservices, Java, Angular, AWS, Google Cloud - Worked extensively on various domains like airline, data science, publishing, e-com.
Professional Highlights Sep 2010 – till date	**Infosys Ltd.** **Bangalore, India** **ORS** **Program Description:** This project offers a reservation system for airlines. **Technology Used:** Spring Boot, Java, Microservices, Redis, Couchbase, Kafka, Docker, Jenkins, Rally, Google cloud, Angular **Duration:** Sep 20- Till date **Responsibilities:** - Hands-on experience of Microservices architecture, microservices development and cloud technologies - Designing and analysis of the requirement - Contributes to root cause/problem analysis and solution brainstorming. - Measures and analyses code for quality - As part of a high-performing development team, design and deliver highly functional, robust, and scalable. - Actively participate and contribute to Agile ceremonies including Daily Stand up's, Sprint Planning, Sprint review, Sprint retrospective meetings - Responsible for end-to-end product delivery including DevOps, release process. - Verifies the developed source code. - Reviews and mentor's other developers in developing solutions which perform to expected results. - Examining and defining current architecture systems. - Experience with Spring boot, Redis, Kafka, Docker, Kubernetes, and Google Cloud Platform **PPS** **Program Description:** This project offers quality elementary, middle, and high school yearbooks and photographs with innovative covers and designs. **Technology Used:** Java, Angular, React, Redux, Spring boot, Microservices, Git, Jira, Bamboo, AWS **Duration:** Dec 15 - Sep 20 **Responsibilities:** - Prepare estimates and provide technical solutions to proposals (RFPs) - Responsible for end-to-end product delivery including DevOps, release process. - Experience in AWS S3 using AWS SDK. - Used SQS using AWS SDK. - Configured Liquibase for managing database. - Implemented store functionality using Redux. - worked as full stack developer.

	Clinical Trials **Program Description:** Clinical trial analysis project aims to analyze publicly available Clinical trials data provided by AACT and then use unsupervised machine learning algorithms to cluster similar types of trials. **Technology Used:** Angular, Redux, Spring Boot, Groovy, HPCC, MySQL, Bootstrap, Git, Jira, Jenkins, Solr Lucene **Duration:** Jun 14 - Nov 15 **Responsibilities:** ● Prepare estimates and provide technical solutions to proposals (RFPs) ● Responsible for end-to-end product delivery including DevOps, release process. ● Created data visualization using angular chart. ● Implemented text searching using solr Lucene. ● Involved in end-to-end Data Lake management using HPCC big data. **SQE/VAS** **Program Description:** SQE is a sales quote engine which manages the inventory in sales. VAS is a vehicle acquisition system. **Technology Used:** Sencha Ext JS, Spring MVC, Hibernate, Java, Selenium, Cucumber, MySQL, SVN, Jira, Jenkins **Duration:** Sep 10- May 14 **Responsibilities:** ● Involved in designing of Front-end, Implementing Functionality with Business Logic ● Responsible for end-to-end product delivery including DevOps, release process. ● Used Ext JS to develop interactive web pages. ● Worked automation using Selenium and Cucumber.
Technical Skills Database Languages and Framework Operating Systems IDE Agile & DevOps Tools Cloud Platform	MySQL, Couchbase, Redis Java, Microservices, Spring boot, Groovy, Python, Angular, Redux Windows, Linux, Ubuntu IntelliJ Idea, Eclipse, VS Code Jira, Bitbucket, GitHub, GitLab, Jenkins, Slack, SonarQube, Bamboo, SourceTree, Rally AWS, Google Cloud
Education **Certification**	Bachelor of Engineering, CVRCE Bhubaneswar AWS Fundamentals: Going Cloud-Native by Amazon Web Services on Coursera Architecting with Google Compute Engine, a 5-course specialization by Google Cloud on Coursera Full Stack Web Development with Angular Front-End Web UI Frameworks and Tools: Bootstrap 4 by The Hong Kong University of Science and Technology on Coursera Design Thinking for Innovation by University of Virginia on Coursera Introduction to Big Data by University of California, San Diego on Coursera
Employment History	Infosys Ltd – Sep 2010 to Till Date Torres Networks India Pvt Ltd(Apr 2008 to Sep 2010 Elitecore Technologies (Sterlite Technologies Limited) – Sep 2007 to Mar 2008
